LinkedIn Recommendations From StartupBootCamp

Our team of designers, storytellers, business analysts and front-end developers, was tasked with coordinating and assisting ten start-ups during the "Acceleration Program".

We hired Giovanni from a recommendation for a project that needed a fast turn around. He met our expectations and beyond producing an award winning pitch deck that was easily communicated to a large audience. He is totally personal and professional with an amazing instinct for good graphics that fit our brand.
James Pulver - Housahedron

Giovanni saved my life when our resident designer got sick right before deadline of an important project. Giovanni's design was amazing. On top he was efficient and stayed cool under stress. It was great to have him and hope we will be working on future projects again.
