

■ I think with the customer's mind. I see through the user's eyes. I plan the job with the heart on my hand

I have consolidated a lot of experience transforming complex concepts in simple and effective visual strategies

I believe in the communication design

Our task as designers is to tell stories filtered by our own story using different types, symbols and images

#### LinkedIn Recommendations

I contacted Giovanni with a request to make a logo for our architecture office. He replied promptly and directed me to supply therequired info about our business, in order to get a clue of our work and needs. After a very short time I got several examples, all of them were creative and showed his deep understanding of our concept, giving us a final result that absolutely convinced us he is the right guy for the mission. The whole communication was totally clear and fast and with lots of positive vibes and support. It was a pleasure to cooperate with Giovanni,

and I would recommendanyone looking for a creative designer to work with him. He's a real pro! **Nir Sabag - Sabag Unit** 

Giovanni saved my life when our resident designer from Start-Up Boot Camp got sick right before deadline of an important project. Giovanni's design was amazing. On top he was efficient and stayed cool under stress. It was great to have him and hope we will be working on future projects again.
